This riddlebook contains a variety of fun and engaging puzzles and activities designed for the lower grades of primary school and even the oldest preschool children.

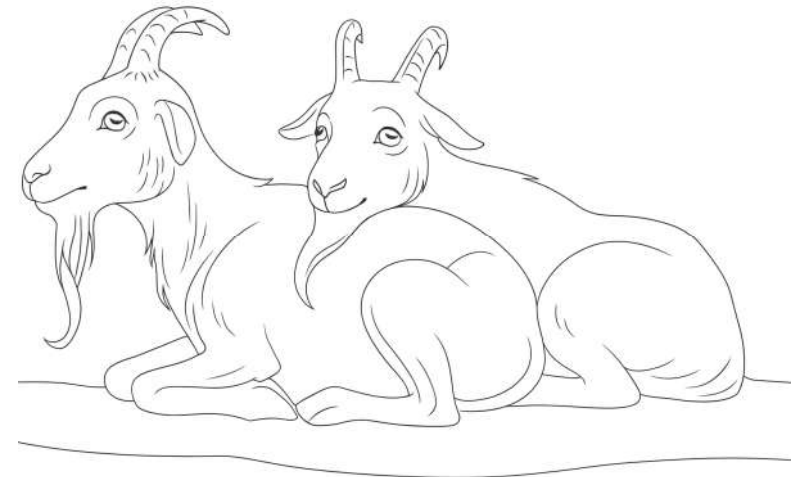

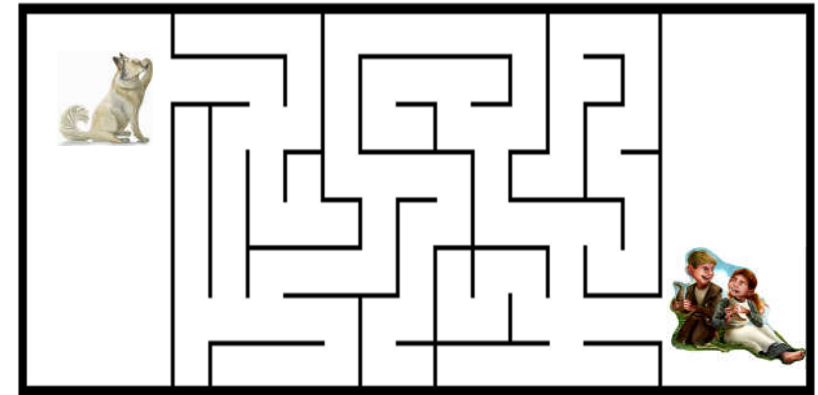

The activities are based on the book *A Summer Day at Glaumbær*, published by the Skagafjörður Heritage Museum in 2021, which is part of the museum's educational material.

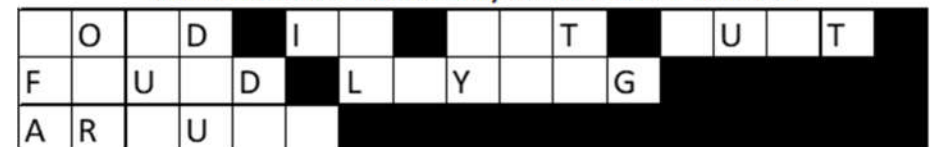

Oh no, the turf house has gotten so strange!
Help Ysja find Siggí and Jóhanna!

A Summer Day at Glaumbær offers children and adults alike an insight into the lives and work of children in Iceland during the latter half of the 19th century. The story aims to bring to life real accounts and descriptions drawn from historical sources.

The setting is Glaumbær, a parsonage in Skagafjörður, which was considered one of the more prosperous farms, with a corresponding level of activity. Here, we follow Siggí, Jóhanna, and the family dog Ysja through a day in their lives. The story is largely based on real people who lived in Glaumbær and the Skagafjörður region in the 19th century.
